Notes					
Technical Limitations <ul style="list-style-type: none"> • OptiComm services will not work during power failures. This service does not include a battery backup power supply for OptiComm equipment or customer equipment. During a power outage your VoIP phone will not function, including calls to emergency services. • Your speed or performance may be reduced by a range of other factors such as your router, internal house wiring, wifi interference and length or quality of cabling to your house. Talk to us about what may be causing your slow speeds and we can suggest ways to improve the speed or performance. Medical Alarms / Security <p>Before acquiring an OptiComm service, you should find out if any medical or security alarm services you want to use are compatible with an OptiComm service. If any such services are not compatible, you should check with the provider to see what alternatives are available.</p>
