Notes			
<p>Technical Limitations</p> <ul style="list-style-type: none"> • Your nbn[®] service will not work during power failures. This service does not include a battery backup power supply for nbn[®] supplied equipment or customer equipment. During a power outage your VoIP phone will not function, including calls to emergency services. • Your speed or performance may be reduced by a range of other factors such as your router, internal wiring and wifi interference. Contact our support team on 1300 333 200 for assistance if you are experiencing slow speeds or any other issue with your service. <p>Medical Alarms / Security</p> <p>Before ordering an nbn[®] service, you should determine if any medical or security alarm services currently in use are compatible with the nbn[®] service. If any such services are not compatible, you should check with the provider to see what alternatives are available. We recommend that you contact your alarm provider to determine this compatibility and alternatives for incompatible devices. Swoop recommend that you register medical alarms by visiting the nbn[®] Medical Alarm Register.</p> <p>* 2 simultaneous streams at a time.</p>
